Education

Zeal College of Engineering and Research

Bachelor of Engineering in Information Technology, Savitribai Phule Pune University

Aug 2023 – Expected Jun 2027

Pune, Maharashtra

Profile

Information Technology engineering student with full-stack experience in Java, Spring Boot, React, MySQL, and REST APIs. Builds end-to-end applications, from backend services to frontend UIs, and has deployed projects with FastAPI and MongoDB. Seeking a Java full-stack internship.

Experience

CodeForSuccess Pvt. Ltd.

Feb 2025 – Jun 2025

Java Full-Stack Development Intern

Pune, Maharashtra

- Developed and maintained full-stack modules using Core Java, Spring Boot, and MySQL, exposing RESTful services consumed by a React frontend.
- Built interactive UI components with HTML, CSS, JavaScript, and React, using DOM manipulation to update content without page reloads.
- Worked within a microservices architecture and containerized services with Docker for consistent development and deployment environments.

Projects

ExamGuard AI – Online Exam Proctoring Platform | React, FastAPI, MongoDB, JWT, Render, Vercel January 2026

- Designed and implemented RESTful APIs with FastAPI for exam, user, and course management, using async/await with Motor for non-blocking MongoDB I/O.
- Modeled MongoDB collections with Beanie ODM and Pydantic schemas for type-safe data access and validation.
- Implemented JWT-based authentication for separate student and admin portals, with bcrypt password hashing and role-based access control.
- Built a proctoring module that detects tab switches, blocks paste, and logs behavioral anomalies to support exam integrity. Deployed on Render and Vercel.

Job Application Portal | Java, Spring Boot, Spring MVC, JSP, MySQL, Maven

August 2026

- Built a full-stack job application web app with Spring Boot and Spring MVC, using a layered Controller-Service-Repository architecture.
- Developed Home and Add Job controllers to handle request routing, form submission, and page navigation.
- Implemented Spring MVC form handling with data binding between JSP form fields and Java model objects.
- Rendered dynamic content using JSP views and Model/ModelMap, integrating the backend with a MySQL database.

Technical Skills

Languages: Java, Python, JavaScript, SQL, HTML/CSS

Frameworks/Libraries: Spring Boot, Spring MVC, React, FastAPI, Bootstrap

Databases: MySQL, MongoDB

Tools & Platforms: Git/GitHub, Maven, Docker, Postman, Render, Vercel, VS Code, Linux

Core Competencies: Data Structures & Algorithms, REST API Design, JWT Authentication, Microservices, Full-Stack Web Development, SDLC

Certifications

Oracle Cloud Infrastructure 2025 Certified Data Science Professional

Aug 2025

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional

Aug 2025

Data Analytics Essentials (Cisco Networking Academy)

Sep 2026

Python Skill Up (GeeksforGeeks)

2026
