## Education

**Zeal College of Engineering and Research**

*Bachelor of Engineering in Information Technology*

**Aug 2023 – Jun 2027**

*Pune, Maharashtra*

## Profile

Engineering student with practical full-stack development experience in Java, Spring Boot, React, MySQL, and REST APIs. Builds end-to-end applications spanning backend services to frontend UIs. Seeking a full-stack internship opportunity.

## Experience

**Java Full-Stack Development Intern — CodeForSuccess Pvt. Ltd.**

**Feb 2025 – Jun 2025**

*Java Full-Stack Intern*

*Pune, Maharashtra*

- Developed and maintained full-stack web application modules using Core Java, Spring Boot, and MySQL, exposing RESTful services consumed by a React frontend.
- Built and styled interactive UI components with HTML, CSS, JavaScript, and React, including dynamic DOM manipulation for real-time UI updates.
- Contributed to a microservices-based architecture and containerized services with Docker for consistent development and deployment environments.

## Projects

**ExamGuard AI - Full-Stack Development** | *React, FastAPI, MongoDB, API, JWT, Render, Vercel* **January 2026**

- Designed and executed RESTful API endpoints using FastAPI for examination, user, and course management, following async/await patterns with Motor for non-blocking I/O.
- Developed MongoDB data models using Beanie ODM and Pydantic schemas, ensuring robust, type-safe database interactions.
- Applied JWT-based dual authentication for student and admin portals with bcrypt password hashing and role-based access control.
- Built a proctoring module with tab-switch detection, paste prevention, and behavioral anomaly logging to support exam integrity.

**Smart Resume Analyzer + Job Matcher** | *React, Python, Flask/FastAPI, SQL, REST APIs, Git* **November 2025**

- Built a full-stack web application with a React frontend and SQL-backed data layer to manage resume and job description data end-to-end.
- Designed and applied REST APIs to connect the frontend with backend services, integrating an ML-based matching engine for real-time candidate scoring.
- Handled data preprocessing pipelines feeding the matching logic, ensuring clean and reliable data flow through the application.
- Managed the full development lifecycle with Git/GitHub, maintaining clean, modular, production-style code.

## Technical Skills

**Languages:** Java, Python, JavaScript, SQL, HTML/CSS

**Frameworks/Libraries:** Spring Boot, React, Node.js, Flask, Bootstrap

**Databases:** MySQL, SQL

**Tools Platform:** Git/GitHub, Docker, Postman, VS Code, Linux

**Core Competencies:** Data Structures, Algorithms, REST API Design, Full-Stack Web Development, Software Development Life Cycle

## Certifications

**Oracle Certified Professional:** OCI 2025 Data Science Professional & Generative AI Professional (Aug 2025)

**TechSaksham (Microsoft & SAP):** Foundation Course on IR4.0 Technologies (Feb 2025)
